BOOKS AND MAGAZINES

We always conduct research before diving into the design process. First, we must understand your audience and read a sample of your work ourselves. Second, we research popular trends within your genre or industry. This process takes time, so you're not going to receive the final product in a few days.
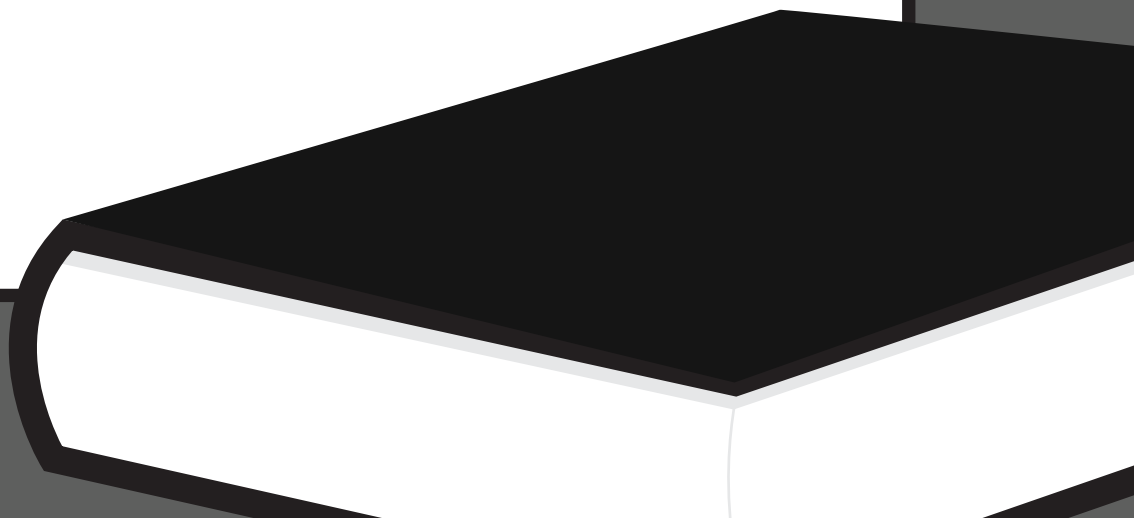

We'll need to know a few more details about your project:

- Total Pages
- Print Company
- Final Size

Turn around can vary from project to project. Your completed package will include a PDF file, image file, and editable AI or PSD file. The final product will be properly formatted and ready to send off to your printers.

If you have anything you want to include, please let us know when you order. Please remember to submit your completed manuscript when ordering.

We do not print books and magazines or provide you with an ISBN. We design covers and layouts only. We will *not* edit your manuscript. That is your responsibility to see done.

WEBSITES

Maintenance, Basic Sites & More

Websites are special request items available by calendar slot only. A normal calendar slot is two weeks in length. However, a larger website will require a longer calendar slot.

EXTRAS

We do not provide a domain name and hosting for your website. We do not write content for your website. These are items you are responsible for. If you want us to handle them, there will be an additional charge:

Content Creation - $20 per page
Domain - $8 + cost of domain
Hosting - $8 + cost of hosting

BASIC WEBISTE

A basic website has between two and six pages that presents information about a person, group or organization. (A brochure style site, if you will.) It's great for people that have no time for blogging and may only update their site a few times a month (if that).

A basic website gives you everything you need without bloat or trapping you in a cookie-cutter design. Our price range for a basic site is $200 to $500. Every basic website comes with the following:

Simple CSS3 Animations
Simple Javascript/JQuery (ex: image gallery, sliders...etc)
Custom Fonts
Contact Form (if applicable)
AI or PSD file of your web design
Custom Icons (if applicable)
Free setup on hosting of your choice
Website files with comments

#	Pricing	# of Pages	Limits
1	$200	1 to 2	3 Custom Icons, 2 Layouts
2	$350	3 to 4	4 Custom Icons, 3 Layouts
3	$400	5 to 7	5 Custom Icons, 4 Layouts
4	$500	8+	6 Custom icons, 6 layouts

You'll have a user friendly dashboard to update your website. There's no complicated updates or security settings to figure out. We do that for you on setup.

WEB MAINTENANCE

Some people have no interest in maintaining or updating their websites. For those people, we offer a maintenance plan at $50 a month.

Everything will be done for you. If there is a problem with either your hosting or web domain, we will handle it. If your code needs maintenance or you want to update your content, we will handle that on your behalf.

BLOGS, FAN SITES & OTHER THINGS

We do work with different platforms to meet more robust needs. Wordpress is a popular option with clients. It's user friendly with a large supporting community.

Typically, we go with what is best for the client. While many people would like a site on a popular CMS, not many actually use it frequently enough to warrant the cost of one. Unless you're going to update more than five times a month, we don't recommend a bulky solution like this.

If you're set on one, though, our pricing for them is different:

#	Name	Pricing
1	Customize Existing Theme	$360
2	Build a Custom Theme	$650
3	E-Commerce	$1200+

Posting regular events, sharing latest works and diligent blogging is made easier with Wordpress. If you actively promote yourself, this would be a better option to go with. Every site will include:

Simple CSS3 Animations
Simple Javascript/JQuery (ex: image gallery, sliders...etc)
Custom Fonts
AI or PSD file of your web design
6 Custom Icons
Free setup on hosting of your choice
Website files with comments

If you want us to customize a premium theme, we charge a flat rate of $360. For rates working with a non-Wordpress platform, please drop us an email.
